

8.4.1.4 Alcohol

Alcohol may be made available (may be consumed) during association activities under specific circumstances. In the event of an association-sponsored activity or while on association business at which alcoholic beverages may be served or allowed, you are expected to conduct yourself in such a manner that you do not represent a danger to yourself, to other employees, to the general public or the association's reputation.

1. The association may provide a limited number of alcoholic beverages per person at any event. Individuals may purchase additional alcoholic beverages beyond this limit at their own expense.
2. The association promotes the use of Designated Drivers at all events. It is the policy of RSAR to provide a safe ride home to all attendees of association events. At each event the EO, Committee chair or other designated person shall be available to ensure that all requests for safe/sober transportation will be accommodated. Every attendee of any RSAR event is expected to conduct themselves in a responsible manner, and request safe/sober transportation from the designated person if necessary.
3. When any RSAR event is concluded the president or chair will announce that "The event is over now"

Rationale: The intent of the alcohol policy is to develop a "culture" of safe and sound practices regarding alcohol use during any RSAR function. Although there is no sure way to prevent a lawsuit, developing this culture may help in any given situation.
